LCFF Budget Overview for Parents Narrative Responses Sheet

Required Prompt(s)	Response(s)
<p>Briefly describe any of the General Fund Budget Expenditures for the school year not included in the Learning Continuity Plan.</p>	<p>General Fund Budget Expenditures not included in the Learning Continuity Plan include expanded personnel expenses (e.g. travel and conferences), building rent and other general operating costs (such as back-office business services, custodial services, utilities, audit, management fees, district oversight fees, website and postage, office supplies, etc.).</p>
<p>The amount budgeted to increase or improve services for high needs students in the 2020-2021 Learning Continuity Plan is less than the projected revenue of LCFF supplemental and concentration grants for 2020-2021. Provide a brief description of the additional actions the LEA is taking to meet its requirement to improve services for high needs students.</p>	<p>The amount budgeted in the Learning Continuity Plan of \$356,158 is less than the \$539,171 in Supplemental and Concentration funding because the initial LCP amount of \$356,158 was budgeted during Sept-2020 under SB98 whereby the High School enrollment / ADA was aligned to Feb-20, and actual growth in enrollment and ADA was not reflected in the S&C allocation. Since the LCP was completed, California passed SB820 which raised enrollment and ADA at the high school, resulting in a higher Supplemental and Concentration funding allocation. We are continuing to work towards fully spending the current Supplemental and Concentration funding allocation for FY20-21 (e.g. targeted intervention and classroom aides, etc.) as the school's student population is predominately high needs (UPP % > 80%) and expenditure timing and programming has been impacted by distance learning.</p>
<p>The total actual expenditures for actions and services to increase or improve services for high needs students in 2019-2020 is less than the total budgeted expenditures for those planned actions and services. Briefly describe how this difference impacted the actions and services and the overall increased or improved services for high needs students in 2019-2020.</p>	<p>Total actual expenditures for actions and services to increase or improve services for high needs students is less than total budgeted expenditures for those total planned actions and services due to the impact of distance learning starting in March 2020 which resulted in lower direct in-person expenditures and support for the remainder of the SY19-20.</p> <p>The school student population is predominately high needs (UPP % > 80%) and therefore a greater percentage of non-supplemental and concentration funding and resources is inherently directed towards this student population on a school-wide basis.</p>
